

CASE STUDY #0005

PROGRAMME TEAM - BUSINESS AND TECHNOLOGY TRANSFORMATION

We were tasked with mobilising a skilled and cohesive team of ten in two weeks to deliver an Intercept and Recovery for a multi-million pound Business and Technology Transformation Programme.

By understanding the requirements of the programme and complexities client, we were able to successfully hire a cohesive team including multiple IT Project Managers, Business Analysts, PMO and Change & Communications Manager.

CONCLUSION

Our commitment to tailoring our approach to each client we work with enabled us to recruit a team that complimented each other and allowed the programme to be delivered on time.
